Signature/Customize Facial-100

For all skin type. A personalized treatment includes deep cleanse, scrubs and exfoliate of the skin to help get rid of the skin's excess oils to balance and support skin's health. The steam machine is used to open the pores to loosen any buildup of dirt for a deeper cleanse. Microdermabrasion or skin scrubber machine is used to gently exfoliate the dead skin cells and impurities. Next, we do light extractions and apply skin toner. A customized mask is used with the LED Photon Face Skin Care Light machine will help boost collagen, enhance your skin tone, as well as reduced an enzyme that contributes to skin damage. Also, we will use High Frequency machine to kill germs, shrink enlarged pores, and reduce the appearance of fine line and wrinkles. Relax with a stress relieving massage and finish up with toner and moisturizer.

Nano Needling with Seaweed Facial- 125

For all skin type except acne prone skin. Seaweed is a magical plant that has the power to rejuvenate, hydrate, and calm skin. The seaweed facial is the ticket to clean, healthy, and smooth skin. We begin with deep cleanse and gentle exfoliation. Next the microdermabrasion or skin scrubber machine is used to gently exfoliate the dead skin cells and impurities. We will use seaweed powder with Nano Needling machine with Nano needle cartridge to specifically treat the uppermost layer of the epidermis to help boost the benefit of skin care products and good nutrients to penetrate deeply into the skin. We will follow with seaweed mask and LED Photon Face Skin Care Light machine. High frequency machine and relaxing massage to promote circulation are included in this facial. We will finish up with toner and moisturizer.

Nano Needling with Ginseng- 125

For all skin type. Ginseng improves skin texture, help to boost the circulation of the blood vessels in the skin which in turn makes the skin firmer, reduce fine lines and wrinkles. It has anti-inflammatory properties and can increase hydration and improves overall skin appearance. We begin with deep cleanse and gentle exfoliation. Next the microdermabrasion or skin scrubber machine is used to gently exfoliate the dead skin cells and impurities. We will use ginseng powder with Nano Needling machine with Nano needle cartridge to specifically treat the uppermost layer of the epidermis to help boost the benefit of skin care products and good nutrients to penetrate deeply into the skin. We will follow with ginseng mask and LED Photon Face Skin Care Light machine. High frequency machine and relaxing massage to promote circulation are included in this facial. We will finish up with toner and moisturizer.

Collagen and Vitamin C Facial- 125

For all skin types. Vitamin C accelerates the production of both collagen and elastin, which helps keep the skin plump and firm. It can help prevent premature aging of the skin and restore a youthful, smooth appearance to the skin. Treatment includes deep cleanse, scrubs, and exfoliating of the skin to help get rid of the skin's excess oils to balance and support skin's health. The steam machine is used to open the pores to loosen any buildup of dirt for a deeper cleanse.

A microdermabrasion or skin scrubber machine is used to gently exfoliate the dead skin cells and impurities. Next, we gently do extractions and apply skin toner. A collagen mask is used with the LED Photon Face Skin Care Light machine will help boost collagen, enhance your skin tone, as well as reduce an enzyme that contributes to skin damage. We will apply collagen and vitamin C serum, then use the Ultrasonic machine to stimulate cells far beyond the superficial layers of the skin, which jumpstarts collagen production, reduces inflammation, promotes blood circulation, and make skin glow. High-frequency and relaxing massage to promote circulation are included in this facial. We will finish up with toner, Vitamin C and Tri-Peptide Collagen moisturizer.

Hydra Facial with 24K Gold- 200

For all skin types. Gold increases blood flow. It helps slow down collagen depletion and elastin breakdown thus making skin look younger, smoother, and more youthful. It helps with coloration, black and whiteheads, and it's also an anti-inflammatory. Treatment includes a multi-step deep cleanse, 24K Gold scrubs, and exfoliating of the skin to help get rid of the skin's excess oils to balance and support the skin's health. This will remove dead skin cells, reduce the appearance of wrinkles, and repair sun damage. The steam machine is used to open the pores to loosen any buildup of dirt for a deeper cleanse. The Hydrafacial machine has seven specific functions. Bubble pen- deep cleanse of the skin, replenishment of skin and oxygen. Ultrasonic head- lets relevant extracts and nutrients fully absorb into the skin. Red light- firms up the skin, remove wrinkle, restores the skin elasticity. Ice restoration head- to calm down the skin and shrink pores. Green light- to tighten the skin. Oxygen injection handle- used to apply toner evenly on the skin. A 24K Gold mask is used with the LED Photon Face Skin Care Light machine. Also, we will use High-Frequency machine to kill germs, shrink enlarged pores, and reduce the appearance of fine lines and wrinkles. Relax with a rejuvenating massage. End with a rich toner and lux 24K Gold cream.

Detox with Green Tea Facial- 125

For all skin type. Using natural ingredients, we are going to use green tea products to help make skin look younger and to unclog pores. It has antibacterial and anti-inflammatory properties to help the skin. The excess oil and toxins in your skin will be removed during this treatment, leaving your face looking and feeling healthier than ever before. A green tea treatment includes deep cleanse, scrubs and exfoliate with green tea to help get rid of the skin's excess oils to balance and support skin's health. The steam machine is used to open the pores to loosen any buildup of dirt for a deeper cleanse. Microdermabrasion or skin scrubber machine is used to gently exfoliate the dead skin cells and impurities. Next, we gently do extractions and apply skin toner. A green tea mask is used with the LED Photon Face Skin Care Light machine. Also, we will use High Frequency machine to kill germs, shrink enlarged pores, and reduce the appearance of fine line and wrinkles. Relax with a stress relieving massage and finish up with toner and green tea moisturizer.

Additional Services:

Dermaplane-50

Benefits: Improves fine lines and wrinkles, promotes collagen formation, lightens brown spots, leave a smoother and healthier skin appearance.

Double cleansers are used to cleanse your skin. Once the skin is completely dried, a small sterile blade is used to gently swipe along the skin in an upwards motion, removing the dead outer layer of skin along with vellus hair (peach fuzz). Squalane Oil is applied during the procedure to help moisturize & hydrate the skin. A facial mask is the last step to help hydrate, brighten, and provide a relaxing end to your service.

Additional Services:

Microdermabrasion-60

Benefits: using a minimally abrasive instrument to gently sand away the outermost layer of dead skin cells. This procedure can improve age spots & blackheads, sun damage, rough texture, lines, and wrinkles.

Double cleansers are used to cleanse your skin. A toner is applied to balance the PH of the skin. Microdermabrasion treatment is provided.

After the procedure, Hyaluronic Acid Serum, Calming Peptide, and Oxygen Rich Serum are used to calm and hydrate your skin. A facial mask is the last step to help hydrate, brighten, and provide a relaxing end to your service.

Additional Services:

Nano Needling-70

Benefits: enhancement of skin elasticity, wrinkle reduction, acne scar reduction, stretch mark reduction. Promoting nutrient absorption, gently exfoliating, increasing circulation.

Double cleansers are used to cleanse your skin. A toner is applied to balance the PH of the skin. Nano needling treatment is processed by using the high quality Needle Pen device along with a nano needle cartridge to specifically treat the uppermost layers of the epidermis.

After the procedure, Hyaluronic Acid Serum, Calming Peptide, and Oxygen Rich Serum are used to calm and hydrate your skin. A facial mask is the last step to help hydrate, brighten and provide a relaxing end to your service.
